- **a review of every facet of your story**
    - sleep [both depth and consistency]
    - energy fluctuations
    - GI distress
    - stress levels // lifestyle design
    - symptoms of hormone imbalance
    - functional fitness and movement routine
  - **very specific goals and milestones established for the mentorship and beyond**
  - **roadmap of care provided within 48 hrs of initial session enabling you to feel like a “co-pilot” on your journey**
    - including recommended labs\* and optimal timing of those draws
  - **specific tasks + daily routine designed for you prepping you to jump into the plan of care**
- \*consider running a Simply Nourished comprehensive wellness panel to prepare for this session [see a la carte section below]

### 8 CONSULT PACKAGE

\$1800

- **we will continue our partnership by meeting for 8 x 60 min sessions to strategically unravel imbalance, build atomic habits and celebrate milestones of transformation**
  - this specific timeline breeds the good type of “urgency”- creating traction and tangible results
  - 8 consults typically span across 4 months giving us enough time to make meaningful [permanent] change and a recalibrated relationship with your body and food
- **included in the package:**
  - clinical tools and pearls of wisdom applied to you and your unique story + goals
  - lab interpretation through the lens of functional medical nutrition therapy [see a la carte below]
  - meal planning guidelines + recipes [with shortcuts every step of the way to streamline your time]
  - structured lifestyle architecture design tailored to you
  - medicinal herbal support- recalibrating areas of imbalance
  - targeted micronutrient repletion using food as medicine paired with targeted nutraceuticals
  - access to bespoke and targeted tools making your tasks approachable + simple + sustainable
  - gentle cleansing and detoxification to push past stagnation
  - 2 x 20 min calls to clarify or work through questions about your protocol
  - notes encapsulating exactly what to do during our time apart with a daily routine provided
  - a plan of care elevating the art of living

#### and on the other side of our time together:

- metabolic flexibility
- deep hormonal recalibration
- balanced micronutrient repletion
- a meaningful relationship with your body and food
